

The Presbyterian Church in Geneva

Policies for Columbarium Niche Purchasers

You may choose your niche from the printed layout of the niches in the office. If no specific niche is chosen, the lowest available niche number will be assigned.

Your purchase will include the initial lettering on the faceplate (see additional sheet for layout options). You may have this done at anytime. Any changes or corrections in the future will be paid for by you or your heirs.

The church office will arrange for the placement of the urn in the niche informally or following the funeral, memorial, or committal service as per your wishes. Arrangements for formal committal services are to be made between the Pastor and the family.

Each columbarium niche has inside dimensions of 10 3/4" h X 11 1/4" w X 11 1/8" d. A single niche can accommodate up to two urns with maximum dimensions of 10 1/2" h X 5 1/2" w X 11" d for rectangular urns or 10 1/2" h X 7 3/4" diameter for round urns.

The tool to open the niches is solely in possession of the church. Access can be arranged during church office hours. The maintenance of the garden and columbaria is the church's responsibility.
